

## HPLS Series

Pool Lighting

- ✓ Waterproof Standard: IP68
- ✓ Material: Stainless Steel AISI 304
- ✓ Polished Stainless Steel Face Ring
- ✓ Concrete Mount
- ✓ E27 White LED Bulb
- ✓ Durable and Long Lasting

### HYDRONIX POOL HPLS SERIES

HPLS Series stainless steel underwater lights are designed for durability and long-lasting performance in concrete pool and spa environments. Built with AISI 304 stainless steel, the light ensures robust resistance to corrosion and wear, making it ideal for prolonged exposure to water. The IP68 waterproof rating guarantees that the light can be submerged in water up to 2.5 meters deep without compromising its functionality.

HPLS Series are also RoHS compliant and CE marked, ensuring adherence to high safety and environmental standards. Whether you need to light up a residential pool or a commercial spa, HPLS Series offers reliable, aesthetically pleasing, and versatile lighting solutions.
